## PORT OF HAI PHONG JOINT STOCK COMPANY HOLDS 2024 ANNUAL SHAREHOLDER'S GENERAL MEETING

The period of 2019-2024 marked a challenging phase for the global, regional, and national economies due to pandemics and political instability. However, it also witnessed the collective successes of the officials and employees of Port of Hai Phong through the achievements in business performance.

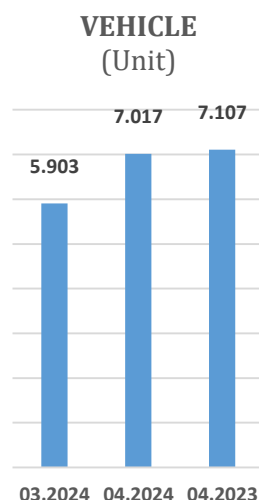

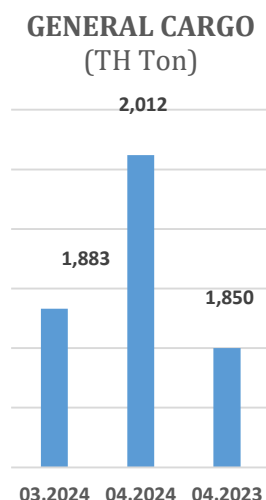

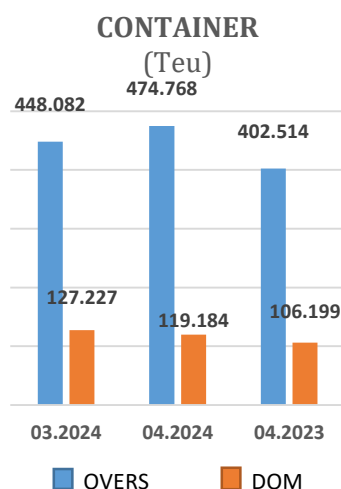

In 2024, Port of Hai Phong has adopted the theme "Upholding Historical Traditions; Enhancing Cooperation and Connectivity; Promoting Investment and Business; Enhancing Competitive Capacity" with the aspiration and determination to realizing its strategic goals and vision. In the upcoming time, Port of Hai Phong will focus on striving to fulfill the goals, tasks, and plans for 2024 as well as those outlined for the 2024-2029 term, as entrusted by the Shareholders; aims for stable growth, maintaining its leading position as a seaport enterprise in the North, thereby ensuring the rights of shareholders, the livelihoods of workers, and making positive contributions to the economic development of the city and the country.

In Apr 2024, the total container throughput via Haiphong reached 594.252 TEU (increase by 3% compared to the Mar 2024 and up 17% over the same period in 2023).

For general cargo, total throughput via Hai Phong hit 2,01 million tons (increase by 7% compared to the Mar 2024 and up 9% over the same period in 2023).

The RORO volume reached 7.017 units (increase by 15% compared to Mar 2024 and equivalent to the same period in 2023).

## UPDATE ON BERTH NO 3 & 4 LACH HUYEN AREA

Port of Hai Phong has successfully completed the construction of berths No. 3 and 4 in the Lach Huyen Port area, three months ahead of schedule, marking a significant milestone in enhancing the port's operational capacity and facilitating logistics activities in the Hai Phong region.

Currently, the overall progress of the EC package (comprising the survey of the entire project, design and construction of berths, dredging, revetment, reclamation, and road construction in Phase 1) has reached approximately 90% completion, essentially meeting the set timeline.

In the Lach Huyen area, since late 2023, cargo throughput via berths No. 1 and 2 at HICT has consistently exceeded the designed capacity. Container stacking capacity at the yard has been overloaded, resulting in low vessel handling productivity. The completion of berths No. 3 and 4 will play a crucial role in addressing this issue, contributing to the creation of a favorable and efficient business environment in the Lach Huyen area.
